

Reimagining technology

Raspberry Pi

A computer costing about £30
HDMI connection for digital display
USB connection e.g. for Wireless dongle
SD card for media

The Raspberry Pi is a credit-card sized computer that plugs into your TV and a keyboard. It's a capable little PC which can be used for many of the things that your desktop PC does, like spreadsheets, word-processing and games. It also plays high-definition video

What are your 'unreasonable' expectations?!

CULTURE SHIFT NAIROBI

A creative sprint on the digital moving image
